To the HOD Mathematics

OHP Teaching notes for Level 1, 2 and 3 Mathematics

OHP Teaching notes for Years 9 and 10 Mathematics

Designed for use with an overhead projector.

- ✓ Supplied on CD in fully editable Word[®] format.
- ✓ Formatted for copying or printing directly onto transparency for use with an overhead projector.
- ✓ Developed over several years by a experienced mathematics teachers

Real learning takes place when students are working on problems from texts or other resources. Presenting notes on the OHP enables the material to be presented clearly and efficiently, leaving more class time for students to practise the skills they have learned in the lesson and for giving individual assistance to students.

- ✓ By using progressive display these notes replace the need for the teacher to write notes longhand on the whiteboard.
- ✓ They are in general more legible than handwriting.
- ✓ Students can take notes from the slides or they can be provided with their own copies in reduced format.
- ✓ The notes can be edited and adjusted to suit individual teaching styles.

These notes will be an even greater asset for a teacher teaching these courses for the first time.

These notes are in use in schools throughout New Zealand and can be used with any current New Zealand Textbook or with a school's own resources. Samples of the notes can be seen on the reverse side of this leaflet or on our website www.ppresources.co.nz.

If you want to know more about how you, your lessons and most importantly your students can benefit from these resources, visit our web site www.ppresources.co.nz.

Please note: L3 Calculus notes cover achievement standards 3.1, 3.2, 3.3, 3.4 and 3.5
L2 Mathematics notes cover 2.1, 2.2, 2.3, 2.4, 2.6 2.7, 2.8 and 2.9. AS 2.5 is omitted as most teachers cover this unit through practical work.
