## Self-teaching Resource - Mind Your Own Business Accounting Package

Have you been putting off teaching the MYOB Accounting Package until you have had the time to learn it yourself? Here is a resource that will help you gain the basics of the package yourself so you can be more confident to include this standard in your course.

The second edition of this popular and widely used package includes photocopy masters for:

- A 50 page self-teaching resource designed to be given to students in booklet form to use at a computer terminal.
- 12 handout pages containing data for the later sessions.
- An assessment task for achievement standard 2.7 (Version 2) with schedule
- Copies of the reports that students should produce within the course.

The photocopy masters enable you to make as many copies of the resource as you need for use within your school.

The price of the photocopy masters is \$120 including GST, post and packaging.

Further information is available from our website [www.ppresources.co.nz](http://www.ppresources.co.nz).
